BENTLEY AT THE CROSS ROADS

On October 20th the citizens of Bentley will vote for or against a licensed hotel to be situated in the village. There has been a long felt need for a hotel at this point and Mr. McGregor of Outlook, Saskatchewan, a successful hotel proprietor of many years' experience is prepared to open a suitable building and run a first class hotel. He comes well recommended and all questionnaires that have been sent in as to his business ability, social and financial standing have received favorable answers in every respect.

Since the vote has been advertised to be taken, first hand information has been gained as to what the people of the district and elsewhere think of the proposed venture. Farmers, travellers, tourists, collectors and hotel men as well as preachers have been interviewed and a large majority have expressed the opinion that a licensed hotel would be a distinct asset to the town. Travellers without exception state that the village has been severely handicapped and that undoubtedly much trade has been lost to the various business houses operating in the village by the lack of good hotel accommodation and restaurant facilities. Travellers have in the past gone to one or the other of the neighboring towns and given them business to which Bentley has been entitled. With a relatively small district tributary to its doors it needs all the business in order to remain in existence. The recent sale to its creditors of one of the main business concerns, is a distinct warning to those still operating, of what may be expected if the present condition of affairs is allowed to exist. Bank returns have suffered considerably and better branches than situated at Bentley have been closed. To lose banking facilities would mean that the Municipal Office would have to move, also the telephone office now operating on a twenty four hour basis in danger of being reduced to twelve.

Under the Alberta Liquor Control Act the village would be fully protected. If at any time the Licensed Premises were conducted improperly, it could be closed permanently in a few hours; and, if at the expiration of two years the people of the village should think that the Hotel has not

proved an advantage, the voice of the people can again be invoked, and the Licensed Premises closed.

With these facts before them, the voters of Bentley would do well to consider the consequences of passing up an opportunity to put themselves on an equal basis with the surrounding towns, by deciding to vote against a measure that will provide good will between village and country, and the centralization of business at the point where it belongs.

TO THE TEACHERS OF LACOMBE

Mass Meeting of Teachers, Ponoka, October 28-29

There will be a mass meeting of all teachers in the Red Deer and Westbank districts in Ponoka at Elks Hall on Saturday, 28th of October.

The speakers are to be on hand and if plans go forward as we expect them to at the present time, no teacher in the district who can possibly attend should neglect being there.

Although under the auspices of the A.T.A. teachers who are not members will be welcomed to the gathering.

It is planned to hold these meetings at least twice and perhaps four times a year if this one turns out to be a success and the committee in charge is very anxious to see a large attendance.

We feel that we can assure every one who comes, both a pleasant and profitable time.

Musical numbers will be rendered during the programme and a dance will follow when the lectures and business are over.

Apply C. M. Lavery the local member of the Committee for any further information.

Yours for success,
C. M. Lavery, B.A.

LINCOLN NEWS

Dr. Little of the Red Deer Health Unit will give an illustrated lecture in the hall at 3 a.m. on Tuesday, October 21st. We would like to see a large attendance as this will be both interesting and informative.

Mr. and Mrs. Bill Dool left on a visit to Buck Lake last Sunday.

Mr. Lester Barr and family is moving to Buck Lake the last of the week.

Mr. Stubbins entertained a number of his Lacombe friends to a big turkey dinner on Sunday last. Let us know when the next feast is coming off, Stubb.

The C.C. Club met in the hall last Thursday to arrange for the big

chicken feast that's coming in the hall on Oct. 27th. Come and bring your friends as the ladies promise lots of good things to eat. Supper starts at 6 o'clock sharp. Dancing will commence at 8 o'clock.

Music by the Meadowbrook. Supper, Adults 20c; Children 12 years and under 20c. Dancing, Genia extra.

MORNINGSIDE NEWS

Sunday, October 22, Harvest Home Thanksgiving Services will be held at Iowa at 11 a.m. Sunday School at 10:30. Fairview, Sunday at 2:30. Thanksgiving service, 3 p.m. Rev. A. E. Hayes, officiating.

Sunday, October 29, Special Services at 11 a.m. Meadowbrook is holding its Chicken Supper on Friday, Nov. 3. This Sunday, October 22nd, the evening service at Morningside will be held in the Manse at 7:30 p.m. in place of 8 p.m.

HOCKEY CARNIVAL

All is now in readiness for the great hockey club Carnival next Wednesday, Thursday, Friday and Saturday, Oct. 23, 24, 25, 26. You can have the time of your life and help the Lacombe Hockey Club along at the same time.

There will be games of every sort and description, House-House, Duck Pond, Hantke Boards, in fact every known game of skill. There will be boxing matches and dancing every night. The big program will take place at the rink where everything has been done to make things entertaining for the patrons. It just costs you a dime to get into the arena and its worth a dollar. This will undoubtedly be the event of the season and you shouldn't miss it.

O. S. Hagen celebrated his eighty-second birthday on Thursday, October 19th, and in honor of the occasion friends gathered at his home and Mrs. Hagen's in Rimby on Sunday last. Those present from outside were: Mr. and Mrs. Gus Sweeney, Fred and Ester of Buckhorn; Mr. and Mrs. Eric Stuber and Zella, of Hantke. Mr. Hagen is still capable of doing his daily work and received that wishes for many more happy birthdays.

A. J. Truett of Wetaskiwin, has opened a tailor shop in Rimby, in the building formerly used by A. E. Fraser as a garage, and in addition will conduct a repairing and dry cleaning business.

W. G. Fraser, accountant at the Fraser mill, Norbuck has returned from his summer vacation, spent on a motor trip through B.C. and some of the western States. He was well pleased with the trip and enjoyed the good highways which he found everywhere. A special thrill was obtained from a trip by air from Vancouver to Victoria.

Mr. and Mrs. H. H. Stevens, of the Fraser mill, Norbuck has returned from his summer vacation, spent on a motor trip through B.C. and some of the western States. He was well pleased with the trip and enjoyed the good highways which he found everywhere. A special thrill was obtained from a trip by air from Vancouver to Victoria.

NEWS OF BLINDMAN VALLEY

Dr. Little of Red Deer, will put on a public health moving picture show and lecture in the Lockhart Hall on October 26th, at 8:30 p.m. No admission charges.

Threshing is nearly finished around Lockhart now. No bumper crops have been reported. The wheat yield has been good, although somewhat below expectations. Quite a lot shows frost. At one time there were eight machines busy.

The regular monthly meeting of Woodside W.I. will be held in the Woodside school on October 21st, at 2 p.m. Mrs. J. B. Burke will read a paper on Legislation, The Christmas Cards have arrived, and members may secure their boxes at the meeting. Hostesses are Madeline C. Rimby, D. Adams, P. Alter and E. G. Dentman.

Mr. and Mrs. J. Adamson returned to Rimby last week from their trip to points in Oregon and Washington. Miss Bertha and Grace Adamson, who spent two months visiting relatives in Oregon, returned with them.

Four members only of the Rimby Club attended the meeting in Hewitt's Lumber Yard office last Tuesday evening, and as a consequence no business was transacted. Another meeting will be held later, when it is hoped that the attendance will be better.

C. H. Hoover, of Women, Sask., a fieldman for the Dominion Agricultural Credit company with headquarters at Regina was in the district for a short time last Saturday. Several loans have been placed in the district and Mr. Hoover was here on company business.

O. S. Hagen celebrated his eighty-second birthday on Thursday, October 19th, and in honor of the occasion friends gathered at his home and Mrs. Hagen's in Rimby on Sunday last. LACOMBE AND DISTRICT NEWS

Mrs. Bayter McLean, has returned from an enjoyable trip to Edmonton. The Hill brothers have pulled their threshing machine in after a successful run this fall.

The Rev. William Henry Johnston, who has been visiting here with his brother, Fred, for some time has returned to his home in California.

Sunday last Miss Kathleen Miller, of Calgary, Jack Smith, of Lacombe, Miss Mary Gale, Jack Jeffries, of Milton and Hazel Cleveland, of Ponoka, spent the day at the McLean home.

We are very sorry to hear that Mr. Wm. Shanks has the loss of a granary of wheat by fire.

Mr. J. O. Todd and son, Angus are spending the winter on their home-lands in Flathead. We are sorry to lose him as he is very popular in the district.

We are pleased to note that Mrs. Howard Kish has returned to Lacombe after a pleasant visit to Stettin.

Miss Phyllis Lee, of Lacombe, has just returned after a pleasant visit at Mrs. B. McLean's home.

The dance held at L. B. Chiswell home a week ago was very successful and is hoped to be repeated.

Mrs. Clara Gule, of Lacombe is visiting at the home of her daughter, Mrs. A. Walker, in Lamont.

Alberta Exhibits For Big Shows

With Alberta's remarkable record of victories at the Regina world grain congress still in mind, the province is preparing for its annual invasion of the royal winter fair at Toronto and the international hay and grain show at Chicago, where for the past six or eight years notable victories have also been won.

Assistance will be given to exhibitors by the provincial department of agriculture but owing to economy measures the extent of this will be somewhat curtailed over former years. Selection of livestock exhibits for the Toronto Royal show being made by the board appointed for the purpose by the government. This will include two carloads of steers especially finished for the show, a carload of purebred Herefords, two or three carloads of Holsteins, probably also two or three head of Ayrshires, and a carload of horses. In addition to the stock selected by the board, there will be exhibits by individual exhibitors at their own expense, included in which will be more steers and other livestock. On these exhibits selected by the provincial board, the federal government pays 75 per cent, and the province 25 per cent, of the freight to Toronto. Last winter at Toronto, Alberta made a remarkable showing in both livestock and grain, taking 261 prizes, of which 266 were in livestock, and the balance in seed grains. There were 24 championships and 11 reserve championships. At Chicago this year, there will be good representation for various seed growers of the province. Last year Alberta took 68 prizes at Chicago, including three championships. Assistance to seed grain exhibitors at the winter fair at Toronto this year will include the following: Entry fee and shipping costs to Toronto will be paid on approved exhibits in registered or certified seed classes, and for junior farm club exhibits. Return shipping costs will not be paid. Entry fees will be paid first by exhibitors and refunded by the department on production of receipt. No assistance will be given to exhibitors in the regular open classes. For seed grain exhibitors at Chicago the department will pay shipping costs to and from Chicago to approved exhibitors. Prize money won in the regular sections will be duplicated. Exhibitors winning one or more first prizes or championships will be paid a special honorarium of \$450 in addition to the prize money. This honorarium will be increased to \$1000 for championship in either wheat, oats or barley. As far as possible the department will give supervision in the handling of exhibits at both exhibitions.

Mr. H. O. Blinn spent the week end visiting friends in Spring Valley district.

Mr. John Badie of the Mont Vista district made a business trip down to his old home farm.

Miss Minnie Montis has returned home.

Mr. and Mrs. A. E. Riley, made a flying trip to Red Deer and Sylvan Lake, Tuesday.

The annual chicken supper will be held in Meadowbrook United Church, Friday, Nov. 3. A good supper and program is assured you, so come and bring your friends.

Arrangements are all complete for Spruceville's big chicken supper on Nov. 3rd, so be sure and keep the date open if you want a real time. Particulars will be announced next week.

Mr. and Mrs. H. H. Stevens, of the Fraser mill, Norbuck has returned from his summer vacation, spent on a motor trip through B.C. and some of the western States. He was well pleased with the trip and enjoyed the good highways which he found everywhere. A special thrill was obtained from a trip by air from Vancouver to Victoria.

WORLD HAPPENINGS
BRIEFLY TOLD

Export of Canadian cattle to the United Kingdom during the year 1933 will total 45,000 head compared with 37,834 head exported last year.

Alberta government received through the gasoline tax on beer \$440,184 from Alberta Hotel Association in 1933, according to Charles Trautman, president.

Advantages of University of Alberta farm radio programs will be extended to farm communities throughout central and southern Alberta this winter.

The Dominion Bureau of Statistics estimates that 246,000 Canadians have been reinstated in employment since April 1. In the month of August, 32,000 left the army of the unemployed for gainful occupation.

One of the world's largest diamonds, a stone of 540 grams or more than 2,000 carats, was reported recently to have been found in a diamond mine in Minas Geraes province. Its value was placed at \$780,000.

The post office department of the British Government has a surplus of about \$53,960,000—the largest in its history. A White Paper has been published giving this figure and other financial details for the year 1932-33.

Successful tests with a new type of electrical rail car, running on ball bearings instead of wheels and capable of making 190 miles an hour, have been announced at Moscow. The train run in a single shaft trough instead of on tracks.

Business is 15 per cent. better in Western Canada, J. B. Lauson, Winnipeg cattle exporter and former member of the Manitoba legislature, declared on his arrival at Montreal to arrange export of western cattle to Great Britain.

William Roy Greenslade, 16-year-old youth of Rose Lynn, about 140 miles northwest of Calgary, has been nominated by the Canadian government for training in the Royal Air Force school at Halton, Buckingham, England.

After seven years spent at the home of the empire, Hugh Baker, late Alberta representative in London, England, has returned to Edmonton, having been recalled on the closing of the Alberta office overseas. He will continue with the inside service of the government in Edmonton.

Commemorates Laying Of First Submarine Cable

Tablet Marking Historic Event Unveiled At Charlottetown

A stormy day nearly 81 years ago when oxen and horses dragged ashore the Prince Edward Island end of the first submarine cable in America, was described at Charlottetown as Chief Justice J. A. Matheson unveiled a tablet commemorating the historic event.

The cable was laid by Frederick Newton Gisborne on Nov. 22, 1852, from Cape Tormentine, New Brunswick, to Charlottetown, Prince Edward Island, a distance of nine miles. The steamer carrying the line across the angry Northumberland Strait could not get within a mile of the Charlottetown shore and the feat was accomplished with great difficulty by means of a ledge anchor and the united strength of eight animals.

Donated by the Historic Sites and Monuments Board of Canada, the tablet was placed on the outside of the provincial building within which the first conference looking toward the confederation of Canadian provinces was held in 1864. Here the achievement of Gisborne was acclaimed by a distinguished gathering presided over by Professor D. C. Harvey, of Halifax, a native of Prince Edward Island, architect of Nova Scotia and a member of the board.

Alcohol From Wheat

Says Plant For This Purpose Doubtful Business Proposition

Establishment of a plant at Calgary to produce industrial alcohol from surplus wheat would be a doubtful business proposition, according to Professor J. W. Shipley, of the University of Alberta, in his report to Calgary Board of Trade, which sought his advice on the matter. The board has been studying the idea as a way to remove the wheat surplus.

"Economically, I am quite sure the manufacture of absolute alcohol from grain would require governmental assistance," Dr. Shipley reports. "In Europe, he points out, 'manufacture of ethyl alcohol from agricultural products cannot compete with the use of gasoline as a fuel, due to the relatively high price of these products for food purposes. In general, in Europe, wherever alcohol is used as a fuel competing with gasoline, it has government support in some form or other.'"

Doctor: My treatment is doing you good. You are looking much better today.

Patient: Oh I always look much better in this hat.

A writer says that "a really good saxophone player is one who can play the instrument with one hand. He'll need the other for self-defence, no doubt."

Common sense would be all right if only it were a little more common.

Fighting Uneven Battle

Wild Tribesmen Being Gradually Defeated By French Foreign Legion

Mild Berber tribesmen, handsome, muscular descendants of a mysterious lost race primitively are fighting a heroic but losing battle with the French in the rugged Grand Atlas mountains, according to dispatches reaching Paris, France, from the scene of the conflict in Morocco.

Pressing the Berbers grimly to defeat are sun-bronzed, darddevil soldiers of the French Foreign Legion enlisted from many lands.

The tragedy of the lost cause of the Berbers was pointed out in Paris military circles where it was recalled that the once romantic and unconquerable leader of the Berbers, the "statueque" Abdel Krim is now in exile on the Isle de Reunion in the Indian Ocean.

Meanwhile the scattered remnants of his tribes are attempting with rifle fire to offset all of the modern machines of war being utilized by the French, except that the French although using machine guns from aeroplanes consider it unsporting to loose poison gas on their enemy.

Racial origin of the Berbers is lost in the mist of antiquity. They are not descendants of any negroid race, being white and somewhat resembling the Arab. The two most reasonable theories accepted by historians is that they are descendants either of Semitic tribes or were Vikings who were driven out of Central Europe.

They follow semi-Pagan worship and in their battle with the French show no mercy on a fallen opponent, mutilating his body and then killing him.

Only a short time ago an attempt was made by French spies, seven in number, to scout the village of Smara "on which," the Moroccan legend goes, "no white man has ever set eyes."

The group came in sight of Smara just at sundown. During the night they were attacked, two of their number being killed, and the other five narrowly escaped death as they fled to join the main command.

Foundry Noise Set To Music

Sheffield's Hammer and Furnaces Form Theme For Overture

Sheffield's clanging steam hammers and roaring furnaces have been set to music by Dr. Desmond MacMahon, a local composer, in an overture giving a musical impression of this great industrial city and its surroundings.

The overture commences with several weird chords intoned first on horns, then on trombones. The chords are similarly repeated for several bars to represent steam hammers. Cymbals rolled with a soft drumstick throughout the introduction suggest escaping steam; flutes, playing sharp upward phrases, represent flames.

Then comes the main motif, symbolizing the city's heavy industries. Throughout the weird steam hammer chords strike the way until a climax is attained.

This is followed by a sudden change as the Derbyshire countryside is introduced. The cuckoo is heard and a pastoral scene is played on an oboe and a clarinet with Sheffield's steam hammers, now played on strings, drumming a distant obligato.

The third and final phase of the overture introduces the Fifth Park secondary school, where Dr. MacMahon is music master, followed by a hymn from "The Bells of St. Andrew" and a crescendo of fire and steam hammer motifs.

Report Of Seed Branch

Gives Prospects Of Clover And Grass Seed Production

The Seed Branch of the Dominion Department of Agriculture reports the prospects of clover and grass seed production in Canada this year, as follows:

Alfalfa—A short crop in Southern Alberta; prospects very poor in Ontario.

Timothy—The total production for all Canada may not be greater than 50 per cent. of the 1932 crop. Southern Alberta, including the Pincher Creek area, will practically have no seed this year owing to drought. In Quebec and Eastern Ontario, the acreage saved for Timothy is less than last year due to a light crop which required more of the timothy to be cut for hay.

Alkali—Much smaller crop in Ontario but of good quality.

Bluegrass—In Ontario almost a complete failure, but the 400,000 lbs. of carryover will take care of the situation.

Red Clover—In Quebec and Ontario, the prospects promise better than usual.

There's A Lull

The McCann wish people would stop parking cars at a certain spot on Spring Street, Seattle. It's legal to do so, but as J. McCann told police: "It's on a hill, and five parked cars have slipped their brakes and come crashing down hill through the front window of the McCann Printing Company. That's too many. There ought to be a law."

B.C. Motion Pictures

Commonwealth Productions, Ltd., motion picture company, announce a contract has been signed with distributors in New York for the production of sixteen pictures at Victoria, B.C. Preliminary work will start immediately with delivery of the first picture called for on or about November 15.

Winnipeg Newspaper Union

By Ruth Rogers

The Winnipeg Newspaper Union is a very active and expert to receive large contributions of fruits, vegetables, grain checks clothing, etc., for distribution to the less fortunate citizens in the winter months.

The personnel of the Committee, which is non-partisan, non-political, is the same as last year and consists of the following: W. W. Champ, Chairman; Mrs. H. R. Horns, J. R. Peverett; Mrs. W. F. Cameron; Mrs. M. J. Matthews; Monseigneur Janssen; Rev. W. H. Adcock; Rev. Dr. Dorey; Rev. J. B. Fritz; Mr. T. K. Moffett; Mr. W. F. Marshall; Mr. Arthur Wood.

The results obtained by this Committee last year were very satisfactory. Citizens throughout the area where crops were plentiful contributed liberally for the benefit of the less fortunate in districts where crops were a failure. It is to enable those who can to contribute in a similar way that the work of this committee will be continued and extended this year.

The Committee have already written to the heads of the Churches, Service Clubs, Fraternal Organizations and other public bodies and to spirited citizens in more than 200 towns in the district where contributions may be expected requesting that they make immediate requests for contributions.

The first week in October was set aside as "Contribution Week." At this week immediately preceded Thanksgiving Day, it was hoped that the response to the appeal for voluntary contributions would be so great that October 9th would result in a real Thanksgiving for all the residents of our Province.

Last year, in addition to large contributions of vegetables, grain checks, clothing, cash, etc., from our own province, the Committee was fortunate in securing many donations of food from British Columbia and Ontario and would request that anyone throughout the province having friends or kindred organizations in either of the two provinces named, from whom contributions might be expected, kindly convey the names to our Committee so that they may be communicated with immediately.

The cash contributions received last year were used for the purpose of buying wool and flannelette, which materials were made into garments by women's organizations in the Committee and distributed by the Committee among the needy residents.

The transportation companies are to be commended on the very important part they are taking in their endeavour to relieve distress among the citizens in the relief areas as they have again granted free freight privileges, that is free transportation on all canned, dried and fresh fruits and vegetables in carload lots and clothing in less than carload lots from anywhere in the Dominion to the relief areas.

However, cannot handle any shipments excepting through the Relief Commission, nor can they grant over-privileges. That is all cars must be loaded or unloaded at one point.

Waiting For Invitation

Only Thing Keeping Ex-Kaiser Away From Berlin

The ex-kaiser, now at Doorn, is ready to return to Berlin when his former subjects send for him. He made this statement to the Rev. L. Thomas, vicar of an English church in London.

The Rev. Mr. Thomas is an old friend. He has returned from a short visit to Doorn, during which he was in the guest of the ex-kaiser and his wife. He says that the ex-kaiser has no more use for the Jews. Before the war, according to the Kaiser, Wilhelm was not unfriendly toward them. But during the war they behaved so badly that now her husband has not a good word to say for them.

Want Prison Probe

Investigation Of Penal System Asked By Church Body

"A thorough investigation and study by an independent and representative commission, of our penal and reformatory institutions," was asked by the Council for Social Service of the Church of England in Canada.

The resolution, moved by Right Rev. A. Richardson, Bishop of Fredericton, seeks a probe of all such institutions "whether Dominion, provincial or local, and of the entire system of dealing with delinquents and criminals."

Europe is a little smaller in area than the United States and Alaska but it has more than four times as many people.

THE HARVEST THANKSGIVING

INDUSTRIAL BOARD ROOM

Famous Painter Died Poor

The most decorated woman in the world has died in obscurity and poverty at Nice at the age of 80. She was the Marquise Cecile de Westworth, the once famous and wealthy woman painter. The title of marquise was conferred on Cecile de Westworth, who was an American, by Pope Leo XIII. for her brilliant work as an artist at the papal court.

SEVENTH HUBBY

Kenneth McConnell, son of an old Scottish family, who is scheduled to be the seventh husband of Mrs. E. E. Bankhead Hoyt (lower), sister of Tallulah Bankhead, British screen actress, and daughter of Senator Bankhead of Alabama. Of the six times she has been wed, three of the lady's ventures were with Morton Hoyt, Washington, D.C., millionaire.

Do they sleep soundly all of the time or wake up from time to time? Do they breathe normally? What is their general disposition? Mr. Childs will carry on his "key-hole" inquiry from mid-November until some time in March, when the hibernation period ends. From his study he believes will come valuable information differing from that gleaned by studies of captive bears.

Dan McCowan, the C.P.R. naturalist in the Rockies, stated that when the bears came out of their long sleep they were as thin as rakes and correspondingly weak. They gradually fattened as time wore on, and when they were due to begin their next hibernation they were hop-fat. They lived upon their own fat throughout the winter months.

Camels and dromedaries also live on their own fat when necessary. Their well-known humps are really fat, and if they have to go without food for a long time the hump gradually grows smaller as it is absorbed in their bodies.—St. Thomas Times-Journal.

Recipes For This Week

(By Betty Barclay)

BRAN BISCUITS

1 cup bran.
1 cup milk.
1 1/2 cups flour.
4 teaspoons baking powder.
1 teaspoon salt.
1 cup shortening.

Soak bran in milk. Sift flour with baking powder and salt. Cut in shortening with knives or dough blender until the mixture is like corn meal.

Add bran and milk, stirring carefully with a fork until dough disappears. Turn out on flour board. Knead lightly and roll or pat into sheet 1/4 inch thick. Cut with floured cutter. Bake in hot oven (425 degrees Fahrenheit) about 12 minutes. Provides 16 biscuits (2 1/2 inch).

COCONUTS

1 cup sugar.
2 cups corn flakes.
1/2 egg whites, stiffly beaten.
1 can shredded coconut, moist.
1/4 teaspoon almond extract.

Beat sugar and salt gradually into egg whites. Fold corn flakes and coconut into mixture. Add almond extract. Drop from teaspoon on greased baking sheet. Bake in moderate oven (350 degrees Fahrenheit) 10 to 12 minutes. Makes 3 dozen coconut cookies.

Sounds Like Good Idea

Punishment For Careless Drivers Suggested By Sault Editor

Jim Curran, editor of the Sault Daily Star, proposes a new brand of "red"—not "Reds." His suggestion is to compel every motorist who is convicted of careless driving to display a red card for 30 days on his car, thus informing the public that he is a bad driver and open to the scorn of everyone. "This," says the Toronto Labor Leader, "is a dandy suggestion and would be a fitting punishment to the guilty one. Jim" does not state how the badge should be. We will help out by suggesting that it be at least one foot square.—Lethbridge Herald.

Youth (to fair companion): "Have you ever tried listening to a play with your eyes shut?"

Voice (from row behind): "Have you tried listening to one with your mouth shut?"

Commercial travellers entering Venezuela and not leaving by the same boat must post an immigration bond.

Liquid air can be used to run steam engines, but it costs \$300 a gallon.

Interesting Attempt To Solve Hibernation Secret

Yellowstone Park Official Will Study Winter Habits Of Bears

What bears do when they hibernate during the winter has always been a source of speculation to naturalists. An interesting attempt to discover these secrets is to be made next winter by Frank Childs of Yellowstone Park.

He will try to persuade a yearling black bear, one of the least vicious species found in the park, to take up lodging for the winter in a specially prepared sunken den. The den is a fifty-gallon barrel, lined with straw and hay, and apparently connected with the surface only by an entrance used by the bear.

Actually there is also a kind of periscope, or listening tube, by means of which Childs hopes to answer these questions, among others:

Do yearling bears nurse or feed in the hibernation period?

Do they sleep soundly all of the time or wake up from time to time?

Do they breathe normally?

What is their general disposition?

Mr. Childs will carry on his "key-hole" inquiry from mid-November until some time in March, when the hibernation period ends. From his study he believes will come valuable information differing from that gleaned by studies of captive bears.

Dan McCowan, the C.P.R. naturalist in the Rockies, stated that when the bears came out of their long sleep they were as thin as rakes and correspondingly weak. They gradually fattened as time wore on, and when they were due to begin their next hibernation they were hop-fat. They lived upon their own fat throughout the winter months.

Camels and dromedaries also live on their own fat when necessary. Their well-known humps are really fat, and if they have to go without food for a long time the hump gradually grows smaller as it is absorbed in their bodies.—St. Thomas Times-Journal.

A Powerful Influence

Canadian Institute Of International Affairs Doing Good Work

"We can render no more excellent service than to promote these two great organizations—the British Commonwealth and the League of Nations," said Hon. Newton W. Rowell in closing the first British Commonwealth Relations Conference at Toronto.

Mr. Rowell ranked the personal friendships formed and the frank statements made on their various points of view as the greatest gathering's most valuable results. It was wise, he thought, that such a conference be unofficial.

"We have no constitution and we do not want one," said Sir Herbert Samuel in moving a vote of thanks to those responsible for the conduct of the conference. He had a special word of commendation for the Canadian Affairs, which he said was rapidly becoming a powerful influence.

The Real Farmer

One Who Keeps Some Livestock Around The Homestead

"One of the most pernicious things in western agriculture has been the ease with which wealth has been obtained from wheat production. Hon. George S. May, Minister of Agriculture, said in address at Edmonton.

Mr. Hoadley recommended a turning away from straight wheat production to livestock production.

"Wheat production pre-supposes five or six months of holidays," he said. "However, you see the real farm home on the land of the man who grows stock. It is different from the place to which a man returns from California to plant his wheat."

Worth Remembering

Ruskin Warned People Against Seeking For Amusement

What the great author and poet Ruskin once wrote about amusement is well worth remembering—"Never seek for amusement, but be always ready to be amused. The least thing has play in it, the slightest word wit, when your hands are busy and your heart is free. But if you make the aim of your life amusement, the day will come when all the absurdities of a pantomime will not bring you an honest laugh."

A Fair Exchange

Brown leaned over the garden fence. "I say, old fellow," he said to his neighbor, "I understand that you have Thompson's new rake?"

The neighbor nodded.

"Good," said Brown. "If you'll let me borrow that occasionally, I'll let you use Jones' roller whenever you need it."

London's First Penthouse

First penthouse in London is to be erected on top of a new apartment which will stand on fashionable Park Lane. The new penthouse, which will have two storeys, will be reserved for Lord and Lady Louis Mountbatten and their family.

During the recent bronchitis epidemic in London, England, thousands of penguins, the Antarctic birds, in the Zoo were wrapped in mufflers.

Ten-passenger planes are to be operated between Amsterdam, Holland, and Batavia, Java.

Having many unique features, a clock built by Daniel Quare, inventor of the repeating watch, was sold recently in London, England, for \$1,100.

Marvels Of Science

Chemistry Has Made Remarkable Contribution In Past Century

During the past century, science has helped marvellously in making man's struggle against the vastness of Nature easier and more fruitful. And the department of science, perhaps the greatest contribution has come from chemistry.

Since 1833, chemistry has given 300,000 new substances to the world, substances which were not thought to have existed a hundred years ago. The list seems incredible. The variety is astonishing. Foodstuffs account for many items, dyestuffs for a large number, while flavors and perfumes themselves make up a lengthy inventory. Fabrics, too, of many weights and textures, have been added to the wardrobe of man, as well as providing novel and efficient coverings for a host of objects. Resins, plastics, explosives and a thousand others could be added to the list.

Chemistry also discovered four unknown elements during the past hundred years—helium, neon, radium and heavy hydrogen. The

CANCER'S TOLL

During 1932, 628 persons died from cancer and a total of 542 cases was reported to physicians and hospitals, according to a report released by the cancer committee of the Alberta Medical Association, Thursday.

"Ignorance of the early indications of cancer on the part of the public and failure to recognize the early manifestations of the disease are the two prime causes of delay in obtaining recognized types of treatment," the report states.

"In reviewing the cases reported, the fact in almost 100 per cent of the cases treatment was given promptly after diagnosis is significant. Poverty is a reason for delayed treatment was given in one case only, and in this case the radiologist concerned offered to provide the treatment, but the patient refused to accept treatment until he was in a position to pay for it.

"In a few cases surgical treatment was unduly prolonged because of the patient's fear of an operation or his desire to try the various quick remedies and consult various quacks. Diagnosis was delayed in a large number of cases for months, and even years, after the apparent onset.

"The report of the cancer cases for the year 1932 have been somewhat more complete than those submitted for the year 1931, but in a large number of the returns received the information is incomplete. There are also a number of physicians who have not as yet reported their cases."

FARMERS' OUTLOOK SOUND TO IMPROVE

Apparently it is necessary for the farmer to take some steps to reduce production for a year or two, but it is only the untidy pessimistic who take the attitude that the era of expanding agriculture throughout the world is at an end. On the contrary it is reasonable to believe that, once the depression is over and international trade re-established, agricultural Canada will come into its own.

Undoubtedly the Great War advanced agricultural production at two world's pace and upon its established equilibrium. The intense nationalistic spirit developed as a part of the war's aftermath accelerated the trouble. Then came the depression with dwindling international trade and agriculture found itself in real trouble.

The experience of past years would indicate, however, that time will relieve many of the burdens borne by the farmer now. If the situation can be helped by international action, so much the better. But world population is bound to increase, although possibly at a much slower rate, and each passing year will see an enlarged demand for farm products. And there are no great new lands similar to Western Canada, Argentina and Australia, still to be opened for agricultural development.

Western Canada, with its large yield of farm products, and its possibilities should not be discouraged about its future. The world managed to consume the production of vast areas of lands during the past sixty years without any apparent indication until the present depression came along. A restoration of good times would immediately see improved demand for farm products. And there are no great new lands similar to Western Canada, Argentina and Australia, still to be opened for agricultural development.

Mr. H. A. Kennedy, of Ottawa, Ont., formerly well-known resident of Lacomb, is spending a few days in the district renewing acquaintances.

SWINE BREEDERS' FIELD DAY

Domestic Experimental Station, Lacomb, Monday, Oct. 30th This Swine Breeders' Field Day should be of interest and profit to every farmer. During the last five years no branch of farming has brought returns better than hog raising. With the new preference on the British market the next five years should bring much higher profits if we have the right type of hogs.

At this Swine Field Day the proper type of select bacon hog will be demonstrated alive and in Wilshire side-s, as compared with the butcher shop hog, which costs more to raise and is worth at least \$2.00 less per hog.

Dr. R. D. Sinclair, University of Alberta, Edmonton, will give a talk and demonstration on the type required in select bacon hogs, combined with good feeding qualities. He will also give demonstration on the type of hogs and sows required to produce select bacon hogs.

H. E. Wilson, Experimental Station, Lacomb, will give an outline of the breeding and feeding experiments under way at the Experimental Station and the Advanced Registration Policy for Purebred Swine.

F. M. Baker of the Industrial and Development Council of Canadian Meat Packers will give a demonstration on the different types of dressed hogs as they appear on the rail. Mr. Baker will also discuss questions in connection with marketing hogs.

S. G. Freuchen, Dominion Live Stock Branch, will discuss the different policies for Government assistance to farmers in raising hogs.

S. G. Carlyle, Live Stock Commissioner for Alberta, will discuss the place of the hog in Alberta farming. The meeting will be held in a comfortably heated garage and the programme will necessarily commence at one o'clock. Coffee, cream, sugar and cups will be provided for those bringing their lunches with them.

While attending a dance at Clive on Friday night a local young man had his overcoat and cap stolen by some sneak thief who took the articles from his car. Information as to the thief will be rewarded on application to The Western Globe.

THAT DEPRESSED FEELING IS LARGELY LIVER

Wake up your Liver Bile Without Calomel You are "feeling punk" simply because your liver isn't pouring its daily two pounds of liquid bile into your bowels. Digestion and elimination are both hampered, and your entire system is being misused.

What you need is a liver stimulant. Something that goes farther than milk, mineral water, oil, laxative candy or chewing gum or roughage which only move the bowels. Something that relieves the real cause of trouble, your liver. See Carter's Little Liver Pills. Purely vegetable. No harsh calomel (mercury) salts. Safe. Ask for them by name. Refuse substitutes. See at all druggists.

Central Alberta Live Stock Feeders' Assn.

Breeder-Feeder Contract

Whereas the Feeder is desirous of feeding and finishing for market head of which are now owned by the Breeder, and whereas the Breeder is desirous of having the said number of cattle fattened for market by the Feeder, this Agreement has been entered into,

- It is the intention of the Breeder to sell these cattle after they have been thoroughly fattened and finished by the Feeder at whatever price he may deem satisfactory and to whatever party he may elect. It is the intention of the Feeder to thoroughly finish and fatten these cattle so that they will command the highest selling price when they are sold, consequently the Feeder agrees to thoroughly fatten and finish the said number of animals.
- The Breeder agrees to pay to the Feeder a price per pound for each pound of well finished gain in live weight which the cattle shall make while they are being fed by the Feeder. The price per pound to be paid the Feeder to be calculated or based on the selling price per pound live weight, plus twenty per cent for calves and forty per cent for yearlings.
- The selling price shall mean the amount of money remaining after all railway, yardage commission, insurance, feed, shrinkage and other charges which are naturally incurred in the marketing of livestock has been deducted from the gross selling price.
- The Feeder or his representative is to inspect these cattle as to weight, health, age, quality and general condition, at the Breeder's Ranch and before they have been driven to the railway loading point, for shipment to the Feeder's feed lot. After such inspection, the Feeder must be satisfied with the cattle supplied him by the Breeder. Freight charges from the Breeder's ranch to the railroad unloading platform nearest the Feeder's feed lot will be paid on the yearlings by the Breeder and on the calves by the Feeder.
- The cattle will be weighed over proper scales on the Breeder's Ranch, directly off cows or out of weaning pens as the Breeder may elect, immediately before they are driven to the railroad for shipment to the Feeder. A deduction of 3 per cent of the gross weight shall be made from the gross weight by the Breeder as a shrink allowance. The net weight so determined shall be the weight at which the Feeder accepts the cattle for feeding purposes. The net weights at which the cattle are sold and paid for shall be the weights for which the Breeder shall make settlement with the Feeder.
- The Feeder is to deliver the cattle, free on cars, and in good order to the Breeder, after they have been weighed and are ready to be marketed by the buyer.
- It is agreed between the Breeder and Feeder that S. J. Henderson of Lacombe, Alberta shall be feeding supervisor. It shall be his duty to aid the Feeder in an advisory capacity with respect to his feeding operations and the Feeder agrees to heed the advice given by the Supervisor. It is also agreed that the Breeder and Feeder will each pay fifty cents per head, such payment to defray expenses in connection with the supervision and any expenses which may be incurred in finding a market for the stock involved, and also the expense of the Central Alberta Livestock Feeders' Association in connection with distribution of funds.
- In the event that the Breeder and the Feeder cannot agree between themselves as to whether the cattle are properly finished for market, then the Supervisor shall decide the matter for them. The opinion of the Supervisor shall be binding on both parties.
- If in the opinion of the Supervisor, the Feeder neglects the said cattle and does not properly feed or care for them, then the Supervisor shall give notice to the Breeder of such opinion. Upon receipt of such notice in writing from the Supervisor, the Breeder may take the cattle from the care and premises of the Feeder and dispose of them as he sees fit. The Breeder is to pay to the Feeder a fair basis of settlement as established by the Supervisor. In making such settlement the Supervisor need not be governed by the scale of payment as set forth for finished gain. The Feeder agrees to deliver the cattle free on cars and in good order, waiting for his money until the cattle are finished and sold.
- It is agreed between the Breeder and Feeder that a death loss of 1 per cent will be allowed by the Breeder. Loss by death in excess of 1 per cent will be borne equally by Breeder and Feeder, except in case of loss by negligence on the part of the Feeder which will be borne in full by the Feeder. The Supervisor shall determine whether the death is due to negligence on the part of the Feeder or otherwise. The price for calculating the value of the calf or yearling as the case may be shall be the price of choice calf or yearling as the case may be at the Calgary stockyards at time of delivery to the Feeder.
- The Supervisor shall have authority to take unthrifty, defective or injured animals and dispose of them locally to best advantage, remitting the returns on a fair basis to the Breeder and Feeder.
- The Supervisor shall have authority to issue a lien against the cattle covered in the feeding contract to the extent of two (2) cents per pound on

the gains made, such a lien to in no way cover or include the Breeder's investment in the animals.
12. It is agreed that proceeds of all cattle sales be made to the Central Alberta Livestock Feeders' Association. The Association to disburse all funds according to the terms of this agreement.

It is a Pleasure, as well as a Duty, to Serve Alberta Grain Growers.
